

# 90 mm, M79A ROCKET HEAT

## Hand rocket

### TECHNICAL DATA:

|  |            |
|--|------------|
| • Caliber (mm)                             | 90         |
| • Type                                     | HEAT       |
| • Mass of container with rocket (kg)       | 5.2        |
| • Rocket mass (kg)                         | 3.67       |
| • Length of container with rocket (mm)     | 715        |
| • Rocket length (mm)                       | 691        |
| • Muzzle velocity (m/s)                    | 245        |
| • Max range (m)                            | 1960       |
| • Effective range (m)                      | 350        |
| • Fuse arming distance (m)                 | 6 to 20    |
| • Fuse self-destruct time (s)              | 4 to 6     |
| • Penetration on homogen armour plate (mm) | > 400      |
| • Operating temperature (°C)               | -30 to +40 |

### PACKING DESCRIPTION:

1 rocket is packed in a container, 3 containers are packed in a wooden case and 12 cases are packed on a palette
