

ANTI-RIOT SHIELD

Anti-riot shield is intended for special police forces and anti-riot squads. It is designed to protect against shotgun ammunition, mechanical blows, fragments blows, chemicals and other liquids.

On the inner side of the shield there is a built-in shock absorber which provides reduction in mechanical impact. It is anatomically shaped to provide better comfort to the user. The handle is made of aluminium coated with polyurethane. Optionally, per user request, baton carrier can be fixed on the inner side of the shield.

The materials used in producing our shields provide:

- good mechanical characteristics
- good optical characteristics
- good thermo-physical characteristics

We offer various dimensions of shield according to customer needs, as well as mentioned shield dimension and model below:

Dimensions: 950mm x 580 mm

Thickness: 4 mm
