

ANTI-RIOT SHIELD

Anti-riot shield is intended for special police forces and anti-riot squads. It is designed to protect against shotgun ammunition, mechanical blows, fragments blows, chemicals and other liquids.

On the inner side of the shield there is a built-in shock absorber which provides reduction in mechanical impact. It is anatomically shaped to provide better comfort to the user. The handle is made of aluminium coated with polyurethane. A baton carrier is also fixed on the inner side of the shield.

The materials used in producing our shields provide:

- good mechanical characteristics
- good optical characteristics
- good thermo-physical characteristics

There are several models of shields depending on its thickness and dimensions:

• Thickness: 4mm
• Dimensions: 950mm x 580mm x 4mm
• Weight: 4,0kg

• Thickness: 6mm
• Dimensions: 1000mm x 580mm x 6mm
• Weight: 5,5kg

• Thickness: 6mm
• Dimensions: 1600mm x 600mm x 6mm
• Weight: 9,5kg
