

# BALLISTIC PLATE LEVEL III+ S-TYPE

Ballistic plates of Level III+ provide protection between Level III and Level IV as defined in NIJ STD 0101.04, particularly with respect to 5.56mm SS 109 caliber ammunition. MDP produces two versions of Level III+ plates (see other plate below).

The external layer can be plastic or fabric. See the table below for protection factor within defined velocities.

Weight: ≤2150 g  
Plate dimensions: 250 mm x 300 mm

## BALLISTIC DATA:

Bullet type	Maximum velocity (m/s)
• 5.56mm FMC 55 Bullet	938
• 5.56mm AP 4g SS109/M855 AP	942
• 7.62 Nato Ball 150 Grain M-80 FMJ	853
• 7.62 Nato Ball 150 Grain M-80 (steel jacketed)	853
• .30 Carabine 110 Grain FMJ	595
• 12 Gauge Rifled Slug	473
• 7.62 x 39 Ball	732
