

MARK

Ballistic vest

Made of high quality material with 3D net on the inside, suitable for ventilation and air circulation making it more comfortable for wearing.

Comfortable and durable vest with side pockets to insert ballistic plates.

Simple putting on and taking off due to VELCRO® woven hook and loop tapes.

Handle for extraction of the user from danger zone.

Hermetically sealed DUPONT™Kevlar® ballistic insertion.

Produced, tested and certified regarding NIJ STD 0101.04 - Level III.

Besides the standard protection level the vest can be manufactured in version NIJ STD 0115.00 - thus providing protection against knife stab.

Manufactured in 4 sizes (M, L, XL, XXL)

Color regarding customer needs.
