

# M05

## Ballistic helmet

The M05 is a MICH-design helmet that was originally made for Special Operations Forces. This helmet provides flexibility regarding communication capabilities, and offers improved field of vision, reduced weight and unobstructed hearing. Higher rear edge enables comfortable wearing of the helmet along with other parts of protective equipment.

### TECHNICAL DATA:

SIZE	HEAD SIZE(cm)	WEIGHT(g)	PROTECTION LEVEL NIJ STD 0106.01	V50 (m/s) STANAG 2920
Medium	54 - 58	≤1140g	IIIA	>650
Large	58 - 62	≤1195g		

### TABLE WITH BALLISTIC DATA:

Ammunition	Ammunition Weight		Maximum Velocity		Energy (J)
	(g)	(Gr)	(m/s)	(ft/s)	
9mm PARA	8	124	441	1450	780
9mm NORMA 19022	7,5	116	410	1245	630
7,62mm Tokarev (steel jacketed)	5,5	85	450	1480	555
357 Magnum JSP	10,2	158	396	1300	800
44 Magnum SWC-GC	15,5	240	441	1450	1510
