

ON-M91

Optical sight for 7.62 mm semi-automatic rifle

Opto-mechanical sight ON-M91 serves for direct fire, on stationary or moving targets, from 7.62 mm caliber semi-automatic rifle. It successfully aims in daylight conditions, and low visibility at night on the illuminated targets.

Mounting sight on weapon can be achieved both with picatinny rail or side mounted (dovetail type).

• Magnification	6x
• FOV (field of view)	4°
• Objective diameter	42 mm
• Eye pupil diameter	7 mm
• Eye relief	84 mm
• Dioptree adjustment of ocular	±2,5 Dptr
• Resolution	<10"
• Range of adjustment the reticle (on horizontal and vertical line)	±18 MOA
• Reticle illumination	tritium or LED
• Working temperature	-30°C to +55°C
• Storage temperature	-40°C to +70°C
• Weight with side mounting	≤ 0,9 kg
