

# RIS x6

## Night vision weapon sight

RIS x6 is a single tube x6 magnification night vision weapon sight. It can be used as night weapon sight for medium to long ranges, or for surveillance. RIS x6 can be used individually or in combination with other devices.

Light weight, ridged and well balanced, RIS x6 incorporates illuminated reticle with windage and elevation adjustments.

Body of RIS x6 is made of highly resistant aluminum alloy and can withstand extreme environmental influence during everyday use.

Specially designed optical system makes RIS x6 compatible with all laser types.

• Magnification	x6
• Filed of view	5.5°
• Target detection	800 m
• Target recognition	650 m
• Focus range	35 m to ∞
• Eyepiece focus	±3 Dptr
• Exit pupil	8 mm
• Eye relief	50 mm
• Reticle adjustment	± 0-18 (18,8 mrad )
• One click on 100 m distance	1' (0-00,15); 2 cm
• Image intensifier	HD 2100/HD 1520
• Input voltage	3 VDC
• Power supply	2 AA(1,5V)
• Voltage reversal protection	Protected
• Switch	ON/OFF
• Battery life	min 40 hours (20°C)
• Weight	2,4 kg
• Length/Width/Height	33 x119x113 mm
• Mounting	Picatinny rail
• Operating temperature	-30°C to +55°C
• Storage temperature	-40°C to +68°C
• Immersion	30 min for 1 m
