

SHARK

Ballistic vest

Durable vest in quality materials, made with 3D net on the inside so it represents an ideal balance of protection and comfort for the user

- Optional possibility: upgrading the vest with ballistic covers (neck, shoulders, groins)
- Simple putting on and taking off due to **VELCRO®** woven hook and loop tapes The whole cape has **MOLLE** system especially suitable for attaching different types of casings
- Hermetically sealed **DUPONT™Kevlar®** ballistic insertion
- Made in compliance **NIJ STD 0101.04 – Level IIIA**; possible addition of protective ballistic plates
- Handle for extraction of the user from danger zone
- Made in 4 sizes: M, L, XL, XXL in customized colors
- Besides the standard protection level the vest can be manufactured in version **NIJ STD 0115.00** - thus providing protection against knife stab.

NIJ STANDARD - 0101.04 BALLISTIC RESISTANCE OF PROTECTIVE VESTS
