

TOP UNIVERSAL VEST

This vest is intended for personnel exposed to high risks due to field work. It provides maximum body protection which comprises basic protection of the chest, back and side area along with optional protection of the shoulders, groins and neck.

Additional protection of the chest, back and sides is provided by inserting ballistic plates into suitable pockets. Additional comfort and air circulation is achieved by incorporating 3D spacer fabric.

Webbing straps on full outer vest area for attaching any pouch configurations.

Levels of ballistic protection according to NIJ standard 0101.04 IIA, II, IIIA, (as well as III, III+ and IV with plates)

Optional: Stab resistance according to NIJ STD 0115.00

Optional ballistic accessories:

Additional protection: A, B and C

Filling options: full, compact and comfort

Colors: various colors available as per customer request

Sizes: M, L, XL, XXL
