

38 mm, MN-24 GK

Neutralizing bullet

MN-24 GK is designed for anti riot control. Combined with irritating cartridges for neutralizing, provides isolation of aggressive individuals. After shooting, rubber balls are acting with mechanical power. When activated, at the distance of minimum 20m, provides effect of shock dispersing rubber balls in diameter of 5 m, which can't cause injury.

DESCRIPTION

Body of the cartridge is made of aluminum, cylindrical shape, with 24 rubber balls 75±5 Sh hardness. It is also produced in 8 mm rubber balls variant.

OPERATION

The cartridge is loaded and fired from a 38 mm weapon. After shooting, ejecting charge throws out rubber balls which get out from the muzzle and act mechanically at the target.

SPECIFICATIONS

• Diameter:	38 mm
• Height:	122 mm
• Weight:	125 ± 5 g
• Weight of ejecting charge:	3g
• Launch:	38 mm weapon
• Range:	min. 20 m
• Shelf life:	5 years
• Transport packing:	waterproof carton box
• Inner packing:	PE bag
• Dimensions of box:	100 x 440 x 270 mm
• Number of units in the box:	40
• Gross weight of transport packing:	6 kg
