

ANTI-RIOT VEST 1

Anti-riot gear is intended for special police forces and anti-riot squads. Its surface protects the body from blows with blunt objects (sticks, stones, etc.) stings and sharp objects from the effects of harmful organic and inorganic chemicals. It does not protect from sharp objects as dagger or crossbow e.t.c.

- Maximum protection
- Reinforced vulnerable body parts protectors
- Full range of motion
- Lightweight and durable

BODY PROTECTION

Protection of the torso, shoulder and groin parts. Highly comfortable vest padded with 3D mesh. Plastic snaps for connection of arm and leg protectors allow unobscured body motion and secure all gear in place.

This model of the vest is made of flexible foam material covered with synthetic fabric, with added inner protective elements made of plastics. They provide the necessary protection and comfort of the body, while the hard parts are made of ABS material designed to endure heavy blows, evenly distributed impact strength, reducing their intensity and also prevents the penetration of sharp objects to the body.

All parts of the anti-riot suit are anatomically shaped, adjustable, reliable, flexible and mutually compatible, allowing users unrestricted mobility.
